

ContraVault AI

Demo Sürümü İlk İzlenimler

İlk İzlenimler

- Program ilk etapta; günler sürecektir ve bir çok alanda alanında uzman kişilerin hazırlaması ve saptaması gereken noktaları çok hızlı bir şekilde saptamaktadır.
- Arayüz kullanım kolaylığı sunmaktadır. Ve talep doğrultusunda firma arayüzde değişiklik, güncelleme ve geliştirme yapmaya açıktır.
- Mevcutta kullandığımız analiz kısmı dışında 'Submission' ve 'Claim' olarak iki farklı kısım daha vardır. Bu kısımlar demoya dahil edilmemiştir. Ancak ilk görüşmede bahsedildiği şekli ile 'Submission' kısmında firma ve personel verileri eklendiği takdirde otomatik olarak kontrat draftı AI tarafından doldurulup, sertifika ve CV'ler sunulmaya hazır olarak hazırlanmaktadır. Claim kısmı net olarak bilinmemektedir.
- Firma görüştüğümüz süreç içerisinde taleplerimize oldukça hızlı reaksiyon vermiştir.
- Daha kapsamlı saptamalar için önceki dönemlerde hazırlanmış olan risk analizleri ile AI'nın hazırladığı risklerin karşılaştırılması üzerine çalışmalarımız devam etmektedir.

Uygulama Giriş Sayfası

- İnternet tarayıcısı üzerinden program arayüzüne girdiğimizde bu ekran bizi karşılamaktadır.

Uygulama Arayüzü ve Analiz Seçenekleri

- Bu kısımda AI tarafından saptanan kontratsal çelişkiler görülmektedir.

The screenshot displays the ContraVault AI interface. The top navigation bar includes the ContraVault AI logo, a user profile icon, and a search bar. The main header shows the breadcrumb path: Neom > Analyse > Contradictions. The left sidebar contains a navigation menu with options: Home, ANALYSE (6), Go/No-Go, Contradictions, Pre-bid Queries, Synopsis, Risks, and Search.

The main content area is titled "Contradiction Analysis" with the subtitle "Because sometimes your contract argues with itself". It indicates that 8 contradictions were found. A list of contradictions is shown, each with a percentage and page references:

- Milestone numbering vs. chronological dates (sequence and penalty uncertainty) - 90% - Pages 149, 149, 150, 150
- Milestone 11: 180-day installation requirement vs. No Liquidated Damages (N/A) - 90% - Pages 149, 149, 150
- Claims, instructions and determinations — entitlement vs procedural precondition - 88% - Pages 35, 35, 35, 36
- Entitlement to extensions for adverse Site Conditions (contradictory clauses) - 88% - Pages 44, 69
- Dispute resolution forum conflict (courts vs arbitration) - 88% - Pages 183, 188, 188, 188

The right sidebar shows a detailed view of a specific contradiction, titled "7.6 Remedial Work". It lists several points (a) through (e) regarding the Contractor's obligations and the Employer's Representative's instructions. The text is as follows:

7.6 Remedial Work

(a) Notwithstanding any previous test or certification, the Employer's Representative may instruct the Contractor to:

- (i) remove from the Site and replace any Plant or Materials which is not in accordance with the Contract,
- (ii) remove and re-execute any other work which is not in accordance with the Contract, and
- (iii) execute any work which is urgently required for the safety of the Works, whether because of an accident, unforeseeable event or otherwise.

(b) The Contractor shall comply with the instruction within a reasonable time, which shall be the time (if any) specified in the instruction, or immediately if urgency is specified under Clause 7.6(c).

(c) If the Contractor fails to comply with the instruction, the Employer shall be entitled to employ and pay other persons to carry out the work. Except to the extent that the Contractor would have been entitled to payment for the work, the Contractor shall pay to the Employer all costs arising from or in relation to this failure.

(d) The Contractor shall not be entitled to any extension of any Milestone Date, the Time for Completion or any additional Costs arising from or in relation to complying with any such instruction under this Clause 7.6 save where and to the extent that the instruction was issued under Clause 7.6(a)(iii) in relation to an accident, or unforeseeable event which was not caused by or within the control of the Contractor.

(e) In addition to the Contractor's other obligations under this Contract, with regard to those products listed in the Technical Data or the Scope of Work (Standard Products), if at any time during the Defects Notification Period and thereafter for any longer period during which a Manufacturer's Warranty is obtained pursuant to this Contract, fifty per cent (50%) of the total number of the same Standard Product installed at the Site is found to be defective, including where such defect is attributable to defective workmanship, the Contractor will, and will procure that its Subcontractors will, replace all such Standard Product installed at the Site. The Contractor shall ensure that this obligation is reflected in back-to-back provisions of all agreements with suppliers/Subcontractors for such Standard Product.

Uygulama Arayüzü ve Analiz Seçenekleri

- AI tarafından tesbit edilmiş kontratsal çelişki örneği.

The screenshot displays a legal analysis application interface. On the left, a sidebar contains a search bar at the top with the text "the vault Civil Works Contractor for the installation of the tunnel MEICA, 180 1 N/A". Below the search bar, a section titled "Claims, instructions and determinations — entitlement vs procedural precondition" is visible, with a progress indicator at 88% and a reference to "Pages 35, 35, 35, 36". The main content area is divided into two panels. The left panel, titled "ANALYSIS", contains a text block stating: "Clear, direct conflict between Page 35 (Clause 3.3 language: Contractor is 'entitled to claim' extensions and costs for complying with Employer's instructions and must comply pending determination, subject to Clause 20.1) and Page 36 (subclause (c): Employer/Representative are not bound to seek agreement or make any determination unless the Contractor has first complied with Clause 20.1). This is an obvious, high-impact contradiction: a Contractor is required to comply (and may incur Critical Delay and Cost) but may be denied any timely determination or relief if strict prior compliance with the claims procedure is demanded. Risk of uncompensated costs, disputes and prejudice to the Contractor is high." Below this, a section titled "EVIDENCE SOURCES" lists four sources: "Page 35 • Source 1" (Subject to Clause 3.3(e), if the Contractor suffers Critical Delay and/or incurs Cost from complying with the Employers Representatives instructions under this Clause 3.3 which it considers to be a Variation (bu...), "Page 35 • Source 2" (The Contractor shall be obliged to comply with the requirements of the instruction pending determination of the Contractors claim, unless otherwise instructed by the Employers Representative.), "Page 35 • Source 3" (The Contractor shall not be entitled to any extension of any Milestone Date, the Time for Completion, or additional Cost where an instruction is issued requesting the Contractor to comply with its obligations...), and "Page 36 • Source 4" ((c) Notwithstanding any other provision in the Contract, the Employer and the Employers Representative are not bound to seek agreement or make any determination unless the Contractor has first complied wi...). The right panel displays the original contract text, which is a clause titled "3.5 Determinations". It contains several paragraphs and sub-clauses. A specific paragraph is highlighted in green, stating: "(c) The Contractor shall forthwith comply with all instructions given by the Employer, the Employer's Representative or any Delegated Assistant on any matter related to the Contract. Instructions shall be given in writing; however, in emergencies, the instruction may be given verbally, and the Contractor must forthwith (and within forty-eight (48) hours of the verbal instruction) confirm its understanding of the verbal instruction by issuing a written acknowledgement to the Employer's Representative. Subject to Clause 3.3(e), if the Contractor suffers Critical Delay and/or incurs Cost from complying with the Employer's Representative's instructions under this Clause 3.3 which it considers to be a Variation (but no Variation is issued by the Employer), the Contractor shall be entitled to claim, subject to Clause 20.1 (Contractor's Claims): (i) an extension of any applicable Milestone Date and the Time for Completion to the extent permitted under Clause 8.4 (Extensions of Time for Completion and Milestone Dates); and (ii) payment of any such Cost to the extent permitted under Clause 13.7 (Adjustments to the Contract Price), which shall be included in the Contract Price." Below this, sub-clauses (d) and (e) are visible, followed by section "3.4 Replacement of the Employer's Representative" and section "3.5 Determinations".

Uygulama Arayüzü ve Analiz Seçenekleri

- Bir önceki sayfada yer alan görsele ithafen Gemini yorumları:

1. Sözleşme Metni Analizi (Görselde Sağ Taraf)

Sağdaki metinde **Madde 3.3 (c)** altındaki yeşil vurgu şu temel kuralları belirlemektedir:

- İşveren temsilcisinin talimatları normalde **yazılı** olmalıdır.
- Ancak acil durumlarda talimat **sözlü** verilebilir.
- Yüklenici, bu sözlü talimatı aldıktan sonra **48 saat içinde** yazılı bir teyit (acknowledgement) yayınlamalıdır.
- Eğer yüklenici bu talimat nedeniyle bir gecikme yaşarsa veya maliyet artışıyla karşılaşarsa, **Madde 20.1** (Yüklenici Talepleri) çerçevesinde bir talepte (claim) bulunmaya hak kazanır.

2. Görselde Sol Taraftaki Analiz ile Uyumluluk Kontrolü

- Sol taraftaki özet, sağdaki metinle şu noktalarda **tutarlıdır**:
- **Doğrudan Çelişki (Conflict)**: Analiz, Madde 3.3 (Yüklenicinin talepte bulunmaya "hak kazanması") ile Madde 20.1 ve 3.5 (İşverenin talebi değerlendirmek için katı prosedürlerin yerine getirilmesini şart koşması) arasındaki gerilimi doğru bir şekilde tespit etmiştir.
- **Prosedürel Risk**: Analiz kısmında belirtilen "İşveren, yüklenici Madde 20.1'e uymadığı sürece bir belirleme yapmak zorunda değildir" ifadesi, metindeki "Madde 20.1'e tabi olmak kaydıyla" (subject to Clause 20.1) ibaresiyle tam olarak örtüşmektedir.
- **48 Saat Kuralı**: Analiz, sağdaki metinde yer alan 48 saatlik teyit zorunluluğunu, yerine getirilmemesi durumunda "maliyetlerin tazmin edilememe riski" olarak doğru yorumlamıştır.

3. Kritik Tespit

- Analiz ve orijinal metin arasındaki en kritik tutarlılık şudur: **Madde 3.3**, yükleniciye bir hak veriyor gibi görünse de, bu hakkı **Madde 20.1**'deki çok katı bildirim sürelerine ve prosedürlere bağlamaktadır. Eğer yüklenici talimatı 48 saat içinde yazılı olarak teyit etmezse veya Madde 20.1 prosedürünü işletmezse, sağdaki metne göre hak iddiasını kaybedebilir.
- **Sonuç**: Sol taraftaki analiz, sağdaki sözleşme maddesinin taşıdığı **hukuki riski** (prosedür hatası nedeniyle para alamama riski) eksiksiz ve tutarlı bir şekilde yansıtmaktadır.

Uygulama Arayüzü ve Analiz Seçenekleri

- Bu kısımda daha öncesinde bulunan riskler, eksik kısımlar, revize edilmesi faydalı olacak maddeler için düzeltme ve soru önergeleri, sunuluyor. Bu kısımdaki listeyi Excel olarak alabilmekteyiz.

The screenshot displays the ContraVault AI application interface. The left sidebar contains navigation options: Home, ANALYSE, Go/No-Go, Contradictions, Pre-bid Queries (selected), Synopsis, Risks, and Search. The main area shows a table of 30 items under the heading 'Pre-bid Queries'. The table has five columns: #, NO-GO CHECK, CLAUSE NO./PAGE NO., ORIGINAL CONTENT, and REQUEST FOR CHANGE. Two items are visible in the table.

#	NO-GO CHECK	CLAUSE NO./PAGE NO.	ORIGINAL CONTENT	REQUEST FOR CHANGE
1	PBG Limit Commercial	Clause No. 4.4 (Page 7), Clause No. 4.4 (Page 40), Annexure 1 - Form of Performance Bond (Page 168)	Performance Bond 4.4 In the amount of five percent (5%) of the Estimated Contract Amount as at the Signature Date, as adjusted in accordance with this Contract. Clause No. 4.4 (Page 7) (a) The Performance	Clause No. 4.4 (Page 7) current requires a Perform Bond of five perce (5%) of the Estima Contract Amount. request revision to replace the five pe (5%) Performance with a fixed cappe amount of INR 100 (Indian Rupees Or
2	Development Security Commercial	Clause 4.4 (Page 7), Clause 14.12(a) (Page 7), Clause 4.4 (Page 40), Clause 3.2.1 (Page 202)	Performance Bond 4.4 In the amount of five percent (5%) of the Estimated Contract Amount as at the Signature Date, as adjusted in accordance with this Contract. Clause 4.4 (Page 7) Taxation Retention	Clause 3.2.1 (Page 202) current requires a Securit Deposit of 45 day occupancy shown SAR [insert]. We re revision to cap the Security Deposit a percent (9%) of th Estimated Contrac Amount as at the Agreement Date.

The right side of the interface shows a detailed view of a specific query, displaying the original content and the request for change. The original content is a paragraph of text, and the request for change is a list of items to be revised.

(b) The Delay Liquidated Damages shall become due and payable to the Employer as they accrue on a daily basis from the applicable Key Milestone Date or Time for Completion regardless of whether a Key Milestone is achieved or Taking Over occurs, and the Employer may demand payment of such Delay Liquidated Damages from the Contractor directly at any time. For the avoidance of doubt, a determination in accordance with Clause 3.5 (Determinations) is not a condition precedent to Delay Liquidated Damages being due and payable.

(c) Notwithstanding the foregoing, if the Delay Liquidated Damages in this Clause 8.7 are found for any reason to be void, invalid or otherwise inoperative so as to disentitle the Employer from claiming Delay Liquidated Damages from the Contractor, the relevant provisions shall be deemed to be deleted from the Contract and the remainder of the Contract shall remain in full force and effect. For the avoidance of doubt, the Employer shall be entitled, to recover from the Contractor under this Clause 8.7(c) the actual costs, losses, expenses and/or damages which the Employer sustains or will sustain as a result of any delay in completion for the purposes of Clause 10.1 (Taking Over of the Works and Separable Portions) which amounts to a breach of Clause 8.2 (Milestones and Time for Completion). Provided always that the Delay Liquidated Damages Cap shall apply to the amount of such costs, losses, expenses and/or damages which may be claimed by the Employer.

(d) The Parties agree that:

(i) the Employer has legitimate commercial interests in requiring the Contractor to complete the whole of the Works, and each Separable Portion in accordance with Clause 8.2; and

(ii) the Delay Liquidated Damages payable under this Clause 8.7 are, for the period in respect of which the Delay Liquidated Damages are payable, proportionate to such legitimate interests and are in all respects a fair and genuine pre-estimate of the losses, damages and expenses likely to be sustained by the Employer as a result of the Contractor's failure to complete the whole of the Works, and each Separable Portion in accordance with Clause 8.2.

8.8 Suspension of Work

(a) The Employer's Representative may at any time instruct the Contractor to suspend progress of part or all of the Works. Upon receipt of such instruction, the Contractor shall suspend the Works forthwith and shall, unless otherwise instructed by the Employer's Representative:

(i) take all reasonable measures to minimise the costs and losses of the

HEADER	CONTENT	ACTIONS
Scope of work	The scope of work is described as follows based on the provided Context: - The scope of work contains a brief description of the Works to be performed by the Contractor and an overview of the Contractor's obligations in designing, executing, and completing the Works. (Page 132) - The scope of work refers to the following documents:	  
Employer/Owner	The Employer or owner is: - NEOM Company, a single-shareholder closed joint stock company incorporated under the laws of the Kingdom of Saudi Arabia. - Commercial registration number: 3550134238. - Registered address: NEOM Community, Building 4758 - AlKhuraybah, 9136, Unit 2, P.O. Box 49643, Tabuk, Kingdom of Saudi Arabia.	  
Registration	Yes, the Contractor and any person performing any part of the Works must be registered and licensed as required by all applicable Laws to execute and complete the Works (Page 53). Additionally, Authorisations include any consent, registration, filing, agreement, certificate, licence, approval, permit, or exemption from a Government Authority (Page 201).	  

124 215

138%

Except as expressly stated to the contrary in the Contract, no provision of the Contract is intended to or does confer upon any third party (including any Subcontractor) any implied benefit or legally enforceable rights enforceable at the option of the third party against the Employer.

21.7 Waiver

(a) None of the terms, provisions or conditions of the Contract are considered waived by the Employer unless a waiver is given in writing by the Employer.

(b) Any waiver of the Employer's rights, powers or remedies under the Contract must be dated and signed by an authorised representative of the Employer granting such waiver and must specify the right and the extent to which it is being waived.

21.8 Imports and Customs

In connection with the performance of the Contract, the Contractor acknowledges that the imports and applicable customs Law apply to the furnishings and shipments of any products and components thereof to KSA. The Contractor specifically acknowledges that the aforementioned import and applicable custom Laws of KSA prohibit, among other things, the importation into KSA of certain products and components.

NEOM Trojena Time Travel Tunnel, Depot and Vault | 1100008185 | 4.2 CCUR Rev4 122

21.9 Rights Cumulative

The rights, remedies and powers of each Party under or in connection with the Contract are in addition to any rights, remedies and powers provided by Law.

21.10 No Variation

The Contract may not be varied except in writing signed by a duly authorised representative of each of the Parties.

21.11 Costs

Save as otherwise expressly provided under this Contract, each Party shall pay its own costs and expenses (including the fees and expenses of its agents, representatives, advisers, counsel and accountants) necessary for the negotiation, preparation, execution, delivery (if applicable), performance of and compliance with this Contract.

21.12 Further Documentation

Uygulama Arayüzü ve Analiz Seçenekleri

- Riskler kısmı mevcut ve fazladan da eklenebilir risklerin hesaplandığı ve değerlendirildiği kısımdır.

Uygulama Arayüzü ve Analiz Seçenekleri

2. Schedule 7 - Delay Liquidated Damages Details

The schedule outlines specific milestones and corresponding daily damages rates, ranging from 0.0025% to 0.015% per day of the estimated contract amount or price, calculated over specified periods (e.g., 100 days). The total aggregate amount of Delay Liquidated Damages is capped at 5% of the higher of the Estimated Contract Amount or Contract Price. Different milestones such as completion of stockpiling aggregates, mobilization, tunnel completion, and depot building completion have specified damages rates and timelines. The detailed milestone-based damages place financial risk on the contractor for failing to meet specific progress targets. Page 150

Cost Impact: 40.0

Likelihood: 35.0

3. Consequences of Delay and Employer Remedies (Clause 8.7 and related clauses)

If the contractor fails to deliver a Recovery Programme on time or fails to adopt revised methods or rectify progress based on the Recovery Programme, the Employer may take actions including removing part of the scope of the works for completion by others and reducing the Contract Price accordingly. The contractor will not accrue further liability for liquidated damages on the removed works but won't get extensions or additional costs for that de-scoped part. This shifts significant risk and cost to the contractor if delays or failures in recovery planning occur. Page 71

Cost Impact: 72.0

Likelihood: 55.0

4. Termination Trigger (Clause 15.2 (a)(xi))

The Employer is entitled to terminate the Contract if the contractor becomes liable to pay the maximum amount of Delay Liquidated Damages (5% cap). This clause presents a significant risk as cumulative delay penalties can lead directly to termination of the contract by the Employer. Page 101

Cost Impact: 65.0

Likelihood: 50.0

Item Description	Clause No.	Data
Performance Bond	4.4	In the amount of five percent (5%) of the Estimated Contract Amount as at the Signature Date, as adjusted in accordance with this Contract.
Parent Company Guarantee	4.4(k)	Yes
Contracts for Novation	4.28	Not Applicable
Time for submission of Baseline Programme	8.3	14 days from the Commencement Date.
Delay Liquidated Damages	8.7(a)	Please refer to Schedule 7 (Delay Liquidated Damages).
Delay Liquidated Damages Cap	8.7(a)	The total amount of Delay Liquidated Damages shall not exceed 5% of the higher of the Estimated Contract Amount or the Contract Price, whichever is greater.
Advance Payment	14.8(a)	The Contractor shall be entitled to a total Advance Payment of 20% of the Estimated Contract Amount as at the Signature Date payable in a single amount.
Taxation Retention	14.12(a)	The Employer shall be entitled to withhold ten percent (10%) of each payment amount set out in each Payment Certificate pursuant to Clause 14.9 (Payment Applications and Certificates).
Expert Determination	20.4(g), 20.4(h)	Where the Parties fail to agree on the identity of the expert for expert determination, the expert shall be appointed
